NEW!

[QuickAlerts]

MESSAGING SYSTEM

Designed for Software Developers, Transmitters and Authorized IRS *e-file* Providers (as of April 10, 2002), is instant, concise and keeps you abreast of *e-file* issues so your operations stay on track.

[EXCITING NEW FEATURES]

- Once uploaded, urgent and important messages are disseminated in a matter of seconds.
- Messages are sent to and received on the “users” pre-selected choice of methods and timeframes.

It's as easy
as 1-2-3.

1

Log on and complete the *contact* and *subscription* screens:

TYPES OF MESSAGES

(subscription screen)

Category 1 - Alerts

Service center campuses and computing center processing delays, telephone router and other programming problems

Category 2 - General IRS *e-file* and Service Center Messages

Service center maintenance schedules, IRS *e-file* program updates and *e-file* Help Desk phone numbers and hours.

Category 3 - General Notifications

Upcoming seminars, conferences, changes to Pub.1346, IRS technical publications and the marketing toolkits.

2

SCHEDULE MESSAGES

The system is automatically set to cover 24 hours a day, 7 days a week. Simply click on the “*apply*” button then you're all set.

It also allows the user to change the schedule to a specific time and /or day, to suit their convenience.

3

METHODS OF RECEIVING MESSAGES

- 1 CELL PHONE
- 2 EMAIL
- 3 FAX
- 4 TELEPHONE

After applying your schedule, **scroll down on scheduling screen to click on the device(s)**, click on finish and you are all done.

It's only a click away!
